PETITION FOR RETROACTIVE FOREIGN FILING LICENSE

Dear Sir:

The above referenced patent application was filed in France on February 7, 2001 and has a French Patent Application No. 01 01612. The subject matter of this patent application was not under a secrecy order at the time it was filed in France nor is it currently under a secrecy order.

The present application was filed in France in error prior to its filing in the United States due to an error in inventorship which resulted in persons having U.S. citizenship recently being

named inventors as indicated in the attached amendment requesting that Douglas E. Roberts and Lionel Poincenot be added as inventors in addition to the original named inventor Jacques Fagot. This petition is being filed with a Request for Correction of Inventorship and thus is being diligently sought simultaneously with the Request for Correction of Inventorship which precipitates it. Also enclosed is the appropriate petition fee under 37 C.F.R. § 1.17(h).

I hereby declare that all statements herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States code and that such willful false statement may jeopardize the validity of the Application or any patent issued thereon.
